U.S. AIRMEN BREAK DURATION RECORDS

FLYING FIFTY-ONE HOURS WITH STARS AS COMPANIONS

Civilian Aviators, Bert Acosta and Clarence Duncan Chamberlain, Snatch Record From French Airmen—Took Turns Sleeping In the Fuselage—Food Taken Along Spoilt By Heat of the Engine—Daring Airmen Stayed Aloft Until Gas Tank Went Dry.

American endurance and mechanism set a world's airplane record Thursday when Clarence Chamberlain and Bert Acosta came to earth after piloting a Bellanca monoplane for 51 hours, 11 minutes and 25 seconds at Roosevelt Field, New York.

The airmen had exceeded by six hours the French record set by Drouhin and Landry, who remained in the air for 45 hours, 11 minutes. After writing history in the sky the two aviators landed amid the cheers of a large crowd that had assembled at the field. They finished their flight at 12:42 o'clock Thursday afternoon. They had taken off at 9:30 o'clock Tuesday morning.

The flight demonstrated the feasibility of a non stop flight from New York to Paris which they contemplate taking in three weeks.

Had they flown in a straight line instead of circling around over the field they would have reached Paris and would have gone beyond, possibly to Constantinople.

"We know you would do it!" exclaimed the wives of the two aviators as they climbed into the seats of the plane and put their arms around their husbands' necks and kissed them. They were the first to greet the record breakers.

"Give me a cigaret," were Acosta's first words after he had kissed his wife.

Some one in the wildly cheering crowd passed one to them.

"I want a drink," were Chamberlain's first words. "We ran out of drinking water Wednesday morning."

As they climbed down from their plane the enthusiastic crowd surged closer, every one apparently eager to slap them on their backs.

The throng, estimated at 2,000 persons, became so unruly that police reserves were called. The patrolmen formed a circle around the aviators as Mrs. Sidney Hillman presented each with a basket of carnations, which they passed to their wives.

Thursday's feat is one of the victories of peace, for it brought back to America the record that had been established by Lieutenants Oakley G. Kelly and John A. Macready at Dayton, Ohio, in April, 1923, when they remained in the air for 36 hours and 4 minutes. This was broken by the Frenchman in August, 1925.

G. J. HERRON DEAD.

Funeral services for George Johnson Herron, 71, retired farmer, who died Wednesday at his home here at Lockbourne, will be held at 3 p. m. Saturday in Lockbourne M. E. church. Burial will be in Walnut Hill cemetery. His widow, Mrs. Narcissus Herron; six sons, Clifford and Ervin of Shadeville; Homer of the Hartman farm; John of Logan; George of South Columbus, and Harley; three daughters; Mrs. Gus Etzinger, Mrs. Walter Gray and Mrs. Ned Clark; 30 grandchildren; two brothers; Jacob of Indiana, and Louis of Columbus, and a sister, Mrs. Margaret Turner, Ashville, survive.

M. E. CHURCH.

There will be communion services this evening at 7:30 o'clock at the Methodist Episcopal church.

The first great cheer of enthusiasm went up from the watchers at 6:43 o'clock Thursday morning, when the aviators broke the French record and started to hang up a new mark for future contestants.

They continued their flight for six more hours, altho at 11 o'clock it was apparent that they were nearing the end, as they had only 10 gallons of gasoline left.

They kept on for another hour and then made a perfect landing.

Lieutenant George R. Henderson is believed to have established an altitude record Thursday for observation seaplanes carrying a load of 1,102 pounds. He made a flight unaccompanied from the Anacostia Naval Air station at Washington and an unofficial reading of his record instrument indicated he had bettered the previous mark of 20,200 feet by more than 2,000 feet.

PERRY HEATH ESTATE

VALUED AT \$200,000.

Filed Thursday at Washington D. C. for probate, the will of Perry Sanford Heath, politician and founder of newspapers, disposes of an estate valued at \$200,000, about half of which goes to his widow, Mrs. Ella C. Heath, who is named as residuary legatee as well as heir to all cash, tangible personal property and the Heath Washington home.

Heath was a brother of Fletcher Heath, 1190 East Broad street, Columbus, who gets nothing in the will. Bennett Heath, nephew of Muncie Indiana, is given \$40,000; Mrs. Cassie H. Bowman (also of Muncie, \$10,000; Ralph C. Heath, Phoebe and Mary Heath, nephew and nieces, of Noblesville, Indiana, \$10,000 each; Fred H. Bowman, Evanston, Illinois, Ralph G. Bowman, Los Angeles, California; Helen B. Janney, Muncie, Indiana, and Harriet B. Meeker, Indianapolis, nephews and nieces, \$7,000 each.

Bennett Heath, who receives a legacy of \$40,000 under the will is a nephew of Mr. and Mrs. Charles H. May, of this city.

PARALYSIS CAUSES DEATH OCTOGENARIAN

Mrs. Margaret C. Ater Died at Williamsport Friday—Funeral Monday.

Mrs. Margaret C. Ater died at her home near Williamsport Friday morning at 8 o'clock. Her death was due to paralysis. She suffered a stroke two weeks ago.

The deceased was the last of a family of twelve children. She was born near Clarksburg September 3, 1844. She was a daughter of John and Mary Parker Baker.

The deceased was the widow of Bennett H. Ater. She was a member of the Methodist church and also a member of Heber chapter Order of the Eastern Star.

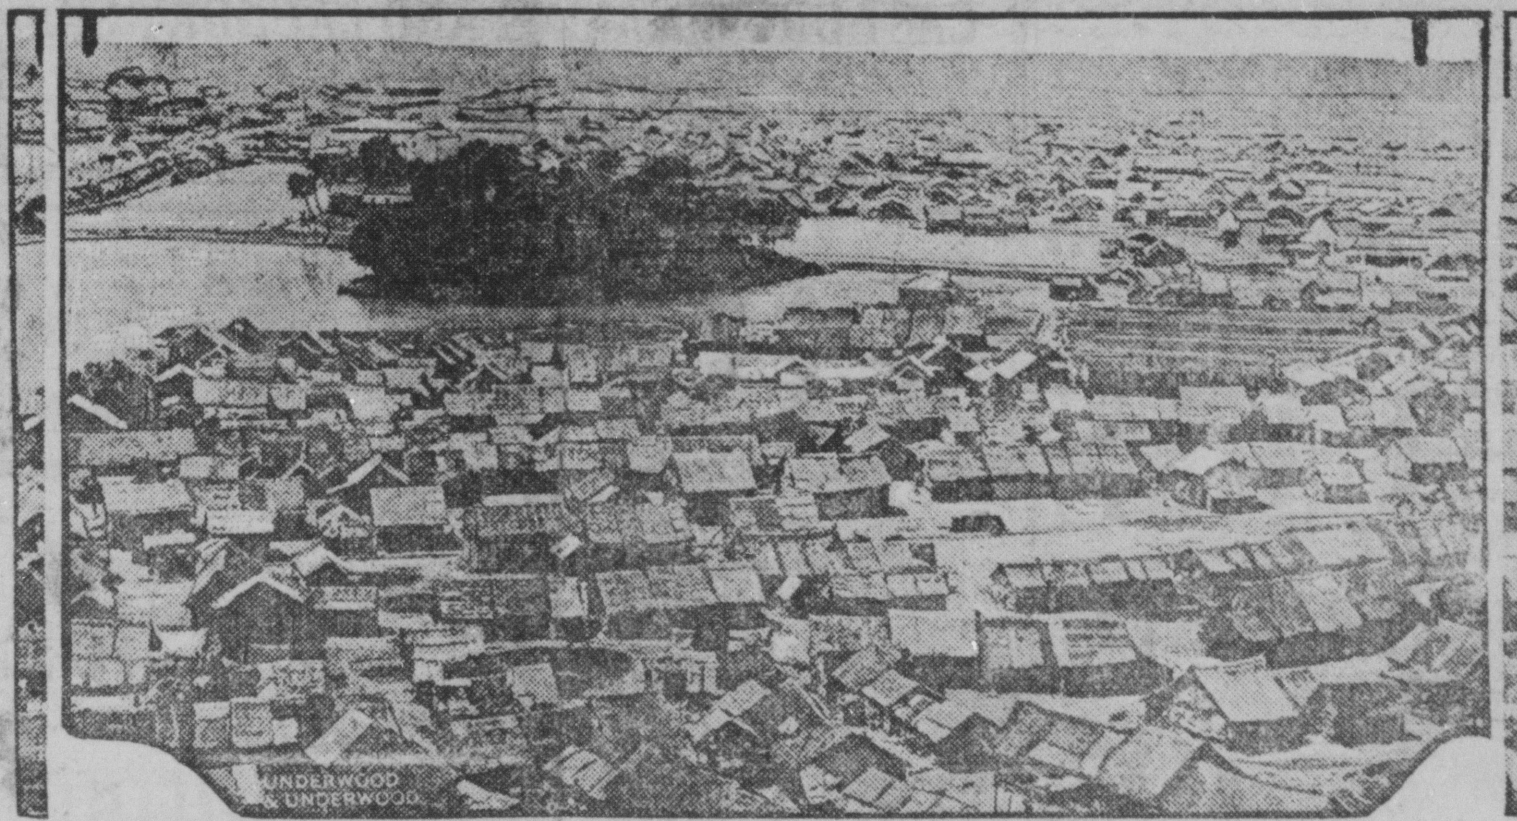

One daughter, Mrs. Cedelia Morgan of Williamsport, survives.

The funeral services will be held at her late home Monday afternoon at 2:30 o'clock. Rev. Trout will officiate. Interment in Springlawn cemetery.

BRIEFLY TOLD

The public schools were dismissed Thursday for the Easter vacation.

HAPPENINGS IN OUR STATE

Taken Direct From Wires By Correspondents of the United States Press Association.

Columbus — Experiments in which electric currents of 50,000 volts were used to strip the outer electrons off the atoms of various chemical elements were described by Dr. R. A. Millikan world famous physicist in his sixth lecture at Ohio State university. These experiments were performed in Dr. Millikan's own laboratory, the Norman.

Columbus — Governor Vic Donahey had a very special fish today for his Good Friday dinner. The fish was a 14 pound catfish caught in a stream in Guernsey county by Elzy Johnson of Cambridge and presented to the governor for observance of Good Friday.

The catfish was one of the largest caught in Guernsey county in several years. When dressed for the governor's table it weighed more than 10 pounds.

New Lexington — After romping on the floor for an hour with his five years old son, Hugh Quigley, 42, railroad employe of Rendville, Perry county, retired. A few minutes later the boy ran to his father's room to kiss him good night. He found his father dead. Too much exertion caused a hemorrhage of the brain physicians said.

Springfield — Following report that Oscar E. Richardson, 40, had been drowned in Mad river near Snyderville, deputy sheriff dragged and dynamited the river for 12 hours without finding the body.

Bucyrus — Crawford county commissioners today offered a reward of \$500 for apprehension of the murderer of Clarence Lowe, Leesville farmer, found dead along the Lincoln highway, near Galion, April 8. Private detectives who have been employed to work on the case believe there is a chance of apprehending the guilty party.

Gallipolis — Dewey Gay, 21, was seriously injured when his automobile plunged over an embankment. He lay unconscious some time before being discovered by passing motorists. His face was crushed and arms broken.

Origin of Unlucky 13

The origin of the anathema attaching to the number 13 has been traced to Scandinavian mythology, wherein there were twelve Æsir gods until Loki, the stainer, intruded himself, making the unlucky thirteenth, says the Dearborn Independent.

LANCASTER GIRL INVENTS CALENDAR.

A novel, perpetual calendar has been invented by Miss Faye A. Stevenson, daughter of Mr. and Mrs. R. E. Stevenson, of King avenue, Lancaster.

The calendar operates on a new principle and is so designed that by turning a cardboard wheel the calendar for each month will appear automatically and in proper order. Besides being useful as a continuous or perpetual calendar, any date may be referred to any years between 1925 and 1947.

Two United States Patents have been issued to Miss Stevenson on the calendar and one patent in Great Britain.

FRACTURE FATAL TO LITHOPOLIS WOMAN.

Funeral service for Mrs. Mary Catherine Bowman, 73, of Lithopolis, who died Tuesday in Grant hospital, Columbus, was held at 10 a. m. Friday in Lithopolis Lutheran church. The body was placed in the mausoleum at Lithopolis.

The death of Mrs. Bowman resulted from a fractured hip suffered a fortnight ago, when she was knocked down by a large dog. She is survived by the husband, a daughter, Mrs. Stella Sparkman of Lithopolis and sons, Emmanuel, of Lithopolis and A. R. Bowman, of Columbus.

RALPH WARE DEAD.

Ralph Ware, the well known and highly respected citizen of Frankfort passed away at his home, Monday night at 11 o'clock. Mr. Ware had been a sufferer from heart trouble and the past few weeks had been confined to his home with the disease. Mr. Ware was in his 74th year and had spent most of his life in that neighborhood. He is survived by four children, Misses Marie and Gertrude Ware at home, Lyle Ware of Buckskin township and John Ware of Bellefontaine.

Mr. Ware was a member of the Methodist church and a member of the Modern Woodmen of America.

CHAPPELEAR BILL DEFEATED IN HOUSE.

Medical examination of persons contemplating marriage will not be required in Ohio thru any enactment of the present legislature.

By a vote of 49 to 67 against the House of Representatives Thursday defeated the Chappelle bill that would have required that medical certificates of fitness be obtained by every person intending to marry before a license be issued. The measure also provided for sterilization of certain defectives before marriage.

The senate had passed the bill, which was sponsored by Senator C. C. Chappelle of Pickaway county—Lancaster Eagle.

Roger Bacon's Error

Columbus was misled into discovering America by the false reasoning of Roger Bacon, who thought that there was only a small ocean between Europe and eastern Asia.

W. B. DRUM DIED SUDDENLY IN CLEVELAND

A long career as banker, broker and financial statistician that won him wide recognition in Cleveland and the state, was ended yesterday when W. B. Drum, 65, was found dead in bed at the New Amsterdam hotel of heart disease.

For twenty-one years he had been connected with Otis & Co. and for the last seven had been head of the firm's statistical department. Although he had been ill for the last few years, he did not relinquish active interest in his work, and visited his office as usual Saturday morning.

Mr. Drum's career in Cleveland began twenty-seven years ago, when he came here from Circleville, O., where he had been bank cashier. His first position here was with the Denison-Prior Co., a brokerage house, from which he went to Otis & Co.

Years of study and experimentation made Mr. Drum an authority on financial reports of corporations, and he often was consulted by firms in Ohio and in the East regarding compilation of such reports.

He was little in the public notice, preferring to spend his leisure time in study and reading. His colleagues recalled last night that he was an omnivorous reader of financial subjects.

Two sisters, Misses Ella and Lydia Drum, are the only immediate surviving relatives. He made his home with them at the hotel following the death of his wife about three years ago.

Funeral arrangements await arrival of the two sisters, who were out of town.—Cleveland Plain-Dealer.

Hard Luck Tales

When you hear a fellow walling that his life would have been far more of a financial success had he had his own way about things, you may usually draw the conclusion that a business crash has been averted for the sole reason that he was not in position to direct.—Decatur (Ala.) Daily.

About the worst insurance risk of all is the innocent bystander.—Great Bend Tribune.

BIRTHS

To Mr. and Mrs. Louis W. Britton Kingfisher, Oklahoma, Tuesday, April 12, 1927, a daughter. The mother was Miss Esther Curry, of New Holland.

MARDIS BILL CUTTING RATES ON OHIO COAL

Went Thru the House by a Vote of 90 to 12 Wednesday Evening.

By a vote of 90 to 12 the Ohio House of Representatives late Wednesday passed the Mardis bill reducing railway freight rates on shipments of Ohio mined coal within the state.

The bill, sponsored by Representative S. K. Mardis, Athens county, would limit the Ohio intrastate coal rate to not more than 70 per cent of the rate in effect Jan. 1, 1917. This would amount to a reduction in the present rate of from 5 to 25 per cent, depending upon the number of miles traveled by the shipment.

The bill now goes to the Senate.

The Legislature will wind up the present session Thursday of next week, unless plans completed Wednesday afternoon are upset.

Senate Republicans, in caucus, agreed to the House program, which calls for a recess Thursday of this week until next Wednesday, when the lawmakers will return for a two-day session.

Another short session later, to act upon legislation which Governor Donahey my veto, is possible.

Most serious threat of disruption for this program lies in a threatened controversy between the Senate and the House over the taxation program.

It was indicated at the Senate caucus that if the House deviates materially from the program agreed upon, the whole program may have to be abandoned and a new one drawn up.

Discussion on the tax program followed warning. Wednesday morning, by C. C. Bolton, majority leader in the Senate, to Martin S. Dodd, floor leader in the House, that if the House passes proposed amendments to the Aigler Corporation Franchise Tax Bill, the Senate will defeat the bill to increase the tax on gasoline to three cents.

Myers Y. Cooper, late Republican candidate for governor, in a speech before the House, commended the members for not passing an avalanche of laws.

Cooper stressed the necessity for economy in state government and called attention to the deficit in the state treasury, which, he said, had equalled \$40,000,000 in four years.

He said he had opposed the half-mill levy but he feels that the Assembly in putting the one-year limit on that legislation, has sensed notice that a new remedy is to be sought for the relief of the state.

The automobile drivers' license bill was defeated by the Ohio House of Representatives Wednesday afternoon for the second time in two days.

The bill, defeated Tuesday by a vote of 70 to 50, was reconsidered and lost by two votes. It needed 69 and received 67, with 55 opposing it.

The state is authorized to borrow \$750,000 on certificates of indebtedness to tide over the present financial emergency, in a bill by Senator C. C. Bolton, passed by the Senate. It now goes to the House.

Scientific Follies

The so-called "seven follies of science," are the quadrature of the circle, the duplication of the cube, trisection of the angle, perpetual motion, transmutation of metals, fixation of mercury and the elixir of life.

Riches Have Wings

Riches oftentimes, if nobody takes them away, take to themselves wings and fly away; and, truly, many a time the undue sparing of them is but letting their wings grow, which makes them ready to fly away.—Leighton.

Ranch Appellations

The name "Lazy," so often affixed to western ranches, refers to the brand used on its animals by the ranch. When letters of the alphabet are used they are often varied by their position. When tilted at an angle of 45 degrees they are said to be "tumbling"; when lying flat on their back or face, "lazy."

O. S. U. STUDENT ELECTROCUTED

Columbus, April 14.—The first serious accident to occur in any course at Ohio State University, cost a life Wednesday when Ira Miller, 23, Delphos, O., senior engineering student, was electrocuted during an experiment in Robinson Laboratory.
Miller, with a fellow student, Alfred Myers, New York, and two others, was conducting a test on an alternating current machine.

It is believed that he accidentally opened the 110-volt field circuit of the alternating current generator with which he was working and at the same time had his hand in contact with the terminals of the circuit.

Myers, noticing Miller's plight, immediately switched off the current but Miller was dead.

Destroyed Currency

A flat sum of \$1,000,000 is carried on the books of the United States treasury as "unknown-destroyed," according to Paul Kinkaid in an article in Liberty. This he explains, attempts to account for all currency that is lost or destroyed, but, as he says, "A much greater percentage of paper money is lost than is shown on the books—how much, the treasury has no way of knowing."

LOANS UP TO \$500

The "wisecracker" might say that money talks because there is a woman's head on every dollar. But you know that is not the real reason. Money talks because the world's business is transacted with money. Money creates a peculiar condition of affairs everywhere it divides society into groups. Families living side by side may be friends, yet because of the difference existing between them in terms of dollars (wealth), they are as total strangers in the world where "money talks." This separation is sensed by both, and the barrier—intangible as it is—becomes real.

The City Loan is always ready to "talk money" with you in terms of helpfulness to yourself and family. You may have taxes to pay or other requirements to meet that call for the immediate expenditure of money, and it will pay you to call here and learn about The City Loan plan.

OUR BASIC
INDUSTRY****Renick W. Dunlap Assistant
Secretary of Agriculture
Talks to Farmers.**Two weeks ago Renick W. Dunlap
assistant secretary of the federal de-
partment of agriculture, addressed
the Illinois Farmers' institute at
Kankakee on "Our Basic Industry."
A copy of this thoughtful speech is
before us. It indicates the quality
and range of his thinking. He says
that "no matter what form of agri-
cultural legislation is finally adopted
it should have the support of a ma-
jority of farmers. No proposal thus
far has been able to command sup-
port even approximating a majority.
No measure which has been present-
ed to congress has had the united
support of even the farm organiza-
tions. The largest of these organi-
zations, one which has a member-
ship larger than the combined mem-
bership of the next two in size, was
opposed to the bill, which was
passed by congress a few days ago.
Nor are unorganized farmers any
nearer an agreement; but if all the
organizations had been together on
their legislative program, it would
have represented only about one-
fifth of the agricultural population
of the country. To date, there have
been sections against sections, one
interest against another, one type of
agriculture trying to supersede other
types."Mr. Dunlap recognizes, however,
that the agitation in congress and
elsewhere for agricultural legislation
has fixed "the farm problem and the
condition of farmers in the national
consciousness. "The spotlight is on
the American farmer," he says. "He
is probably the most talked-of per-
son in the country. He is the sub-
ject of serious conversation in the
business office, in the bank, the store
and the factory. He is on the front
page of newspapers and is given con-
siderable space in The Congressional
Record. He is talked about in meet-
ings of all kinds, and especially is
he talked about whenever politicians
are gathered together."It is possible, therefore, that since
farmers are conscious of this fact
they may be better prepared than
they otherwise would have been to
appreciate this counsel from Mr.
Dunlap: "The first thing to do in
approaching the future is to adopt
an attitude of hopefulness.
For several years any farmer who
was publicly hopeful and confident
has been condemned as "an enemy of
farmers" by some organized groups
backing legislative programs. A
stock farmer in St. Clair county, Il-
linois, last year received \$5,000 for
his hog crop, raised on his 240 acre
farm. It was mostly profit. He paid
\$2,500 for tile with which to drain
and improve his land. Another
Illinois farmer made an encouraging
net profit last year. These men in-
form The Gazette, of which both are
subscribers, that they cannot afford
publicly to state in conversation or
print what they made last year, be-
cause, if they did, they would prob-
ably be publicly criticized as fake
bookkeepers who are against farm
relief.Consequently, it has come to pass
that those farmers who are doing
well are not only in the limelight, but
thousands of business men do not be-
lieve that they exist. It has always
been true that farmers who are doing
fairly well or prospering don't "tell
the world." Trouble-makers, how-
ever, and those who exploit the trou-
bles of others are always "telling the
world." It is this element in agricul-
ture whose press agented activities
have delayed and largely prevented
the development of hopefulness and
confidence among farmers. In-
fluenced by an organized campaign
politically to "sell" farming as a
moribund occupation, many a man
engaged in it has lost heart, laid
down on the job and wearily ex-
claimed, "What's the use?"Fortunately, the hopeless attitude
is dying of its own weakness and
futility. Hopefulness and confidence
are evidenced by stockraising farm-
ers to a more marked extent than by
any other class of farm people. Both
are based on an increasingly satis-
factory position of the commercial
live stock trade. Stock farms are
spreading the contagion of a hope-
fulness that breeds constructive ef-
fort.—The Breeders' Gazette.**Named for Nikolai Lenin**Lenin mountains will be the name

performed by Dr. F. L. Morse after a
futile attempt to knit the neck verte-
brae by the use of plaster cast alone.
Although somewhat reluctant to talk
about himself, Doctor Morse admits
the success of his operation has been
a surprise even to himself.Slight paralysis had already set in,
affecting the nervous system of Par-
sons' left arm and side when Doctor
Morse attempted the operation at the
St. Louis Baptist hospital.The basal vertebrae of the neck had
been thrown directly forward, but not
enough to sever the nerves running
from the base of the brain, and at St.
Mary's hospital the neck was set and
placed in a plaster cast. Parsons' neck
was in this cast four months,
but when the cast was removed the
neck again slipped forward.**Region Dreaded by Sailors**The "Roaring Forties" is a sailors'

Self-Improvement

There are few pleasures to be compared with that sense of growing self-mastery—of increased purposefulness and effectiveness in our daily lives which is the reward of frequently thwarting and contradicting our lower selves.—Dean Inge.

BROTHERHOOD MEETING.

A most interesting meeting of the Otterbein Brotherhood of the U. B. church was held Thursday evening at the community house. It was an open meeting and a very large crowd of men, women, young people and children enjoyed the excellent program, and the fellowship of the evening.

A short business session was first held in charge of the president, Mr. J. R. Kirkpatrick. Much interest was manifested when he outlined a plan to start a fund toward the building of a new \$15,000 community house, the plan being 100 men or women to pledge one dollar a week for one year, to raise the initial sum of \$5,000 as starting the work.

Mr. Kirkpatrick was so bubbling over with enthusiasm, that the spirit appeared and several names were given as pledging their interest and cooperation.

The program was then taken up in charge of Mr. James Trimmer.

By request, "Aunt Clara" Denman and her old-fashioned choir repeated the old-fashioned singing program, which they gave a short time previously at the Ladies' Aid. In the spirit of this social time several beautiful old hymns of our "Savior's Passion" were beautifully rendered.

A paper was read by Mr. E. S. Neuding written by Hon. Whitcraft, of Logan, which he gave before the Rotary club Thursday noon.

A recitation, "The Doughnut" by Bobby Davis and "It's Not the Church it is You" by Charles Davis were well given.

Charles Kirkpatrick gave a pretty cornet solo, accompanied by Earl Green.

The closing number of the program was a song rendered by a mixed quartet composed of Mrs. Fannie Greeno, Mrs. Bessie Long Mr. Harry Kraft and Mr. Jim Trimmer.

Delicious refreshments of brick ice cream and homemade cake and coffee were then served by the March committee.

TRAFFIC TOO HEAVY, PARKS FOR SLUMBER

Excited Woman Thought Autoist Was Dead.

New York.—Lieut. David McCann sat in comparative peace in Brooklyn police headquarters and then suddenly the telephone rang. "There's a dead man in an automobile at Locust avenue and East Thirteenth street," a woman's voice announced excitedly. "Yes?" inquired the lieutenant.

That broke up the lieutenant's morning—that and nine other telephone calls like it. McCann reported: "A flock of dead men in automobiles at the corner of Locust avenue and East Thirteenth street." A wagon load of police went over.

There was Inspector John J. Sullivan, in charge of all of the detectives in Brooklyn. There was Acting Capt. John Ryan. There were 25 assorted detectives. And there, sure enough, was the automobile with a man in the rear seat.

Doctor Robinson was called from the Kings county hospital. "Looks bad," he remarked, and shook the body. There was no response. Then he prepared to test the heart action. That time there was a response.

"What," inquired the body, turning suddenly into Ralph Harrison, twenty-five years old, "is the matter?"

"You tell us," suggested the police, in unison.

"I remember now," said Harrison, suddenly. "Last night I had a drink or two and then everywhere I went I could see three or four cars coming toward me. I decided that traffic was pretty hard and pulled over to the curb to take a nap. And there you are."

A detective drove him home.

U. S. EXAMINATION.

Announcement has been made by Leslie L. Pontius, secretary, board of U. S. civil service examiners at Circleville, Ohio, that the government is in need of persons qualified as medical technicians and senior medical technicians in both the specialties of bacteriology and reentgenology for duty in the U. S. Veterans' bureau and the U. S. Public health service in Ohio, Indiana and Kentucky. In the U. S. Veterans' bureau medical technicians are paid from \$1500 to \$1860 a year and senior medical technicians \$1860 to \$2400 a year. The salaries are somewhat lower for the public health service, but appointees are allowed quarters, subsistence and laundry. In the absence of further notice applications are to be rated as received until June 30, 1927.

Further information regarding the requirements may be obtained from the secretary of the local board of examiners at the postoffice or by writing the secretary, Sixth U. S. Civil Service District, Cincinnati, Ohio.

AMUSEMENTS

Come, on Jackie! That's the cry that reverberated thru the Met theater when the youngest star of the movies is appearing in his latest production, "Johnny Get Your Hair Cut" a race track story by the late Gerald Beaumont.

Children and grown-ups alike were out of their seats as Jackie, astride "Thunderbolt," came charging down the homestretch — each calling for their favorite to win. Then something dreadful happened, and Jackie faltered—but that's the big surprise in the picture, and it would detract from the entertainment were you to be told everything in this column—suffice to say that never has there been such a race track scene in any other film.

Whoever was responsible for selecting this vehicle for Jackie's first film, sans the Dutch bob, is to be congratulated. Much depended on the story which was to introduce a new Jackie Coogan to the American public. We are frank to admit that we like the Jackie with the regular boy laid cut, just a tiny bit better than the baby Coogan who has blessed the screen these five years past. The young genius may have lost some superfluous hirsute, but those big brown eyes seem to have grown in size since last he appeared in a picture.

The faithfulness with which the director has followed the original manuscript merits particular praise. Any deviation from the story that Gerald Beaumont wrote with Jackie in mind for its hero would have been detrimental to the picture. As the orphaned son of a trainer of fine race horses, Jackie starts to make his way in the world—his chief ambition to be a great jockey. He stows away on a palace horse car which is carrying race horses from the eastern tracks to the west and arrives ultimately at Tanforan, California. What befalls him there, and the series of comedy events which lead to the great race show Jackie at his very best and will add even to the fame that is already his.

The beautiful race track at Tanforan is used as the setting for this vigorous screen story. Most of the photographic effects are credited to Frank Good, for many years head cinematographer for the Coogan company. E. Reeves Eason, who directed the thrilling chariot race sequences in "Ben-Hur" is responsible for the most exciting horse race ever photographed. The picture was made under the supervision of Jack Coogan Sr.

Cats as "Retrievers"

The ancient Egyptians are said to have killed wild ducks with throwing sticks, to have made use of decoys, and to have trained cats as retrievers. They also hunted with trained lions, which belong to the cat species. There have been also hunting leopards used as long ago as the reign of Kubla Kahn in China.

EASTER PROGRAM.

The Easter program which will be held at St. Paul's Evangelical church will consist of a pageant and speeches and will be held Sunday evening at 8 o'clock. Everybody invited.

GOOD FRIDAY OBSERVANCE.

At the meeting of the Circleville chamber of commerce, held on April 5, a resolution was adopted asking all business houses to close their business for one hour (2 to 3 o'clock) on Good Friday, April 15, 1927. A number of our churches will have services at that time, and all citizens are requested to attend Divine service at some church.

Sealed bids will be received by the undersigned executrix, by the attorney or by the probate judge, at the office of the probate court of Pickaway county, Ohio, at the court house in Circleville, Ohio, until

TUESDAY, APRIL 26, 1926, at 12 o'clock noon, Eastern Standard time for the purchase, for cash, of the entire stock of merchandise, store furniture and fixtures, belonging to the estate of Clayton D. Closson, deceased; said business having been conducted under name of "National 5 & 10 Cent Store," at 115 East Main street, in Circleville, Ohio, until the death of said deceased.

This personal property has been appraised by competent judges of merchandise, namely: stock of merchandise \$11,135.26; store furniture and fixtures, \$826.18; total appraisal of same \$11,961.44. All bids must cover both stock and furniture and fixtures and must be accompanied by a certified check payable to the order of Floss E. Closson, executrix, for ten per cent of bid, or by a cash deposit of said sum, as a guaranty that if bid is accepted, the balance of purchase money will be paid and terms of sale fully complied with. Said executrix reserves the right to reject any or all bids received.

Should the purchaser desire to continue the business at present location said purchaser, if responsible, can procure a lease for said storeroom and basement, from the owner of the building, for a term as long as ten years, at a monthly rental of \$125 per month, lessee to provide his light, heat and water.

Stock and inventory can be inspected by party interested at any time, and full particulars can be procured from undersigned.

Mrs. Floss E. Closson, Executrix,
Meeker Terwilliger, Attorney,
Circleville, Ohio.

Dry Raiders Sued For \$25,500 In Death of Albany Man.

Athens, April 13.—Mrs. Eva Bolton, Albany, Athens county, whose husband, Lawrence Bolton, was shot to death by dry raiders last October, filed today a \$25,500 damage suit against five officers.

Mrs. Bolton claims the officers shot and killed her husband at night when he failed to halt his car at their command, and that they had no warrant to search his auto or person. No indictment was ever returned against the raiders although grand jury investigation was held last January.

Claims to Have Solved Tailspin Air Problem

Santa Monica, Calif.—Donald Douglas, airplane manufacturer and designer of the United States army world-flight planes, says that he will announce at the third annual Pan-American commercial conference in Washington, May 2 to 5, that a new method of balance has solved the tailspin problem of flying. A shift in the weight distribution of the airplane, by the removal of fuel tanks to the center of gravity, has conquered the air bugaboo, Douglas asserts.

—STATEMENT—

Statement of the ownership, management, circulation, etc., required by the act of congress of August 24, 1912, of The Daily Union-Herald, published weekly at Circleville, Ohio, to April 1, 1926.

Before me, a notary public, in and for Pickaway county, personally appeared C. C. Chappellear, who having been duly sworn according to law, deposes and says that he is the sole owner of The Daily Union-Herald, and that C. C. Chappellear is the publisher, editor, managing editor, business manager of said publication and that his address is Circleville, Ohio, and that there are no bondholders, mortgagees and other security holders owning or holding one per cent or more of total securities. That the average number of copies of each issue of the publication sold or otherwise distributed thru the mails or otherwise to paid subscribers during the six months preceding the date shown above is 1136.

C. C. CHAPPELEAR.
Sworn to and subscribed before me this 9th day of April, 1927.

Ancients Overlooked Celery

Epicures of olden times, while skillful in finding nice things for the table, overlooked celery, although it grew as a wild product in many countries and was plentiful, and the plant was brought into the market as a luxury, still is considered one and the wild crop has not been used save in a small way.

DUPONT IS FIREMAN

One of World's Richest Men Fights Blaze at Neighboring Farmhouse.

Wilmington, Del., April 13.—(U.P.)—Pierre S. Dupont, formerly head of General Motors and reputedly one of the richest men in the world, turned fireman to save farm homes from destruction.

Six fire companies, including the one from Dupont's Longwood estate, were called out last night when the \$11,000 farm house of Clark May was being razed by flames.

Dupont accompanied his company and directed hose men in quenching the blaze before it could spread to nearby dwellings. He remained on the scene almost until dawn.

U.S. AIRMEN BREAK DURATION RECORDS

FLYING FIFTY-ONE HOURS WITH STARS AS COMPANIONS

Civilian Aviators, Bert Acosta and Clarence Duncan Chamberlain, Snatch Record From French Airmen—Took Turns Sleeping In the Fuselage—Food Taken Along Spoilt By Heat of the Engine—Daring Airmen Stayed Aloft Until Gas Tank Went Dry.

American endurance and mechanism set a world's airplane record Thursday when Clarence Chamberlain and Bert Acosta came to earth after piloting a Bellanca monoplane for 51 hours, 11 minutes and 25 seconds at Roosevelt Field, New York.

The airmen had exceeded by six hours the French record set by Drouhin and Landry, who remained in the air for 45 hours, 11 minutes. After writing history in the sky the two aviators landed amid the cheers of a large crowd that had assembled at the field. They finished their flight at 12:42 o'clock Thursday afternoon. They had taken off at 9:30 o'clock Tuesday morning.

The flight demonstrated the feasibility of a non stop flight from New York to Paris which they contemplate taking in three weeks.

Had they flown in a straight line instead of circling around over the field they would have reached Paris and would have gone beyond, possibly to Constantinople. "We know you would do it!" exclaimed the wives of the two aviators as they climbed into the seats of the plane and put their arms around their husbands' necks and kissed them. They were the first to greet the record breakers.

"Give me a cigaret," were Acosta's first words after he had kissed his wife.

Some one in the wildly cheering crowd passed one to them.

"I want a drink," were Chamberlain's first words. "We ran out of drinking water Wednesday morning."

As they climbed down from their plane the enthusiastic crowd surged closer, every one apparently eager to slap them on their backs.

The throng, estimated at 2,000 persons, became so unruly that police reserves were called. The patrolmen formed a circle around the aviators as Mrs. Sidney Hillman presented each with a basket of carnations, which they passed to their wives.

Thursday's feat is one of the victories of peace, for it brought back to America the record that had been established by Lieutenants Oakley G. Kelly and John A. Macready at Dayton, Ohio, in April, 1923, when they remained in the air for 36 hours and 4 minutes. This was broken by the Frenchman in August, 1925.

G. J. HERRON DEAD.

Funeral services for George Johnson Herron, 71, retired farmer, who died Wednesday at his home home at Lockbourne, will be held at 3 p. m. Saturday in Lockbourne M. E. church. Burial will be in Walnut Hill cemetery. His widow, Mrs. Narcissus Herron; six sons, Clifford and Ervin of Shadeville; Homer of the Hartman farm; John of Logan; George of South Columbus, and Harley; three daughters; Mrs. Gus Etzinger, Mrs. Walter Gray and Mrs. Ned Clark; 30 grandchildren; two brothers; Jacob of Indiana, and Louis of Columbus, and a sister, Mrs. Margaret Turner, Ashville, survive.

M. E. CHURCH.

There will be communion services this evening at 7:30 o'clock at the Methodist Episcopal church.

The first great cheer of enthusiasm went up from the watchers at 6:43 o'clock Thursday morning, when the aviators broke the French record and started to hang up a new mark for future contestants.

They continued their flight for six more hours, altho at 11 o'clock it was apparent that they were nearing the end, as they had only 10 gallons of gasoline left.

They kept on for another hour and then made a perfect landing.

Lieutenant George R. Henderson is believed to have established an altitude record Thursday for observation seaplanes carrying a load of 1,102 pounds. He made a flight unaccompanied from the Anacostia Naval Air station at Washington and an unofficial reading of his record instrument indicated he had bettered the previous mark of 20,200 feet by more than 2,000 feet.

PERRY HEATH ESTATE

VALUED AT \$200,000.

Filed Thursday at Washington D. C. for probate, the will of Perry Sanford Heath, politician and founder of newspapers, disposes of an estate valued at \$200,000, about half of which goes to his widow, Mrs. Ella C. Heath, who is named as residuary legatee as well as heir to all cash, tangible personal property and the Heath Washington home.

Heath was a brother of Fletcher Heath, 1190 East Broad street, Columbus, who gets nothing in the will. Bennett Heath, nephew, of Muncie, Indiana, is given \$40,000; Mrs. Cassie H. Bowman (also of Muncie, \$10,000; Ralph C. Heath, Phoebe and Mary Heath, nephew and nieces, of Noblesville, Indiana, \$10,000 each; Fred H. Bowman, Evanston, Illinois, \$10,000; Ralph G. Bowman, Los Angeles, California; Helen B. Janney, Muncie, Indiana, and Harriet B. Meeker, Indianapolis, nephews and nieces, \$7,000 each.

PARALYSIS CAUSES DEATH OCTOGENARIAN

Mrs. Margaret C. Ater Died at Williamsport Friday—
Funeral Monday.

Mrs. Margaret C. Ater died at her home near Williamsport Friday morning at 8 o'clock. Her death was due to paralysis. She suffered a stroke two weeks ago.

The deceased was the last of a family of twelve children. She was born near Clarksburg September 3, 1844. She was a daughter of John and Mary Parker Baker.

The deceased was the widow of Bennett H. Ater. She was a member of the Methodist church and also a member of Heber chapter Order of the Eastern Star.

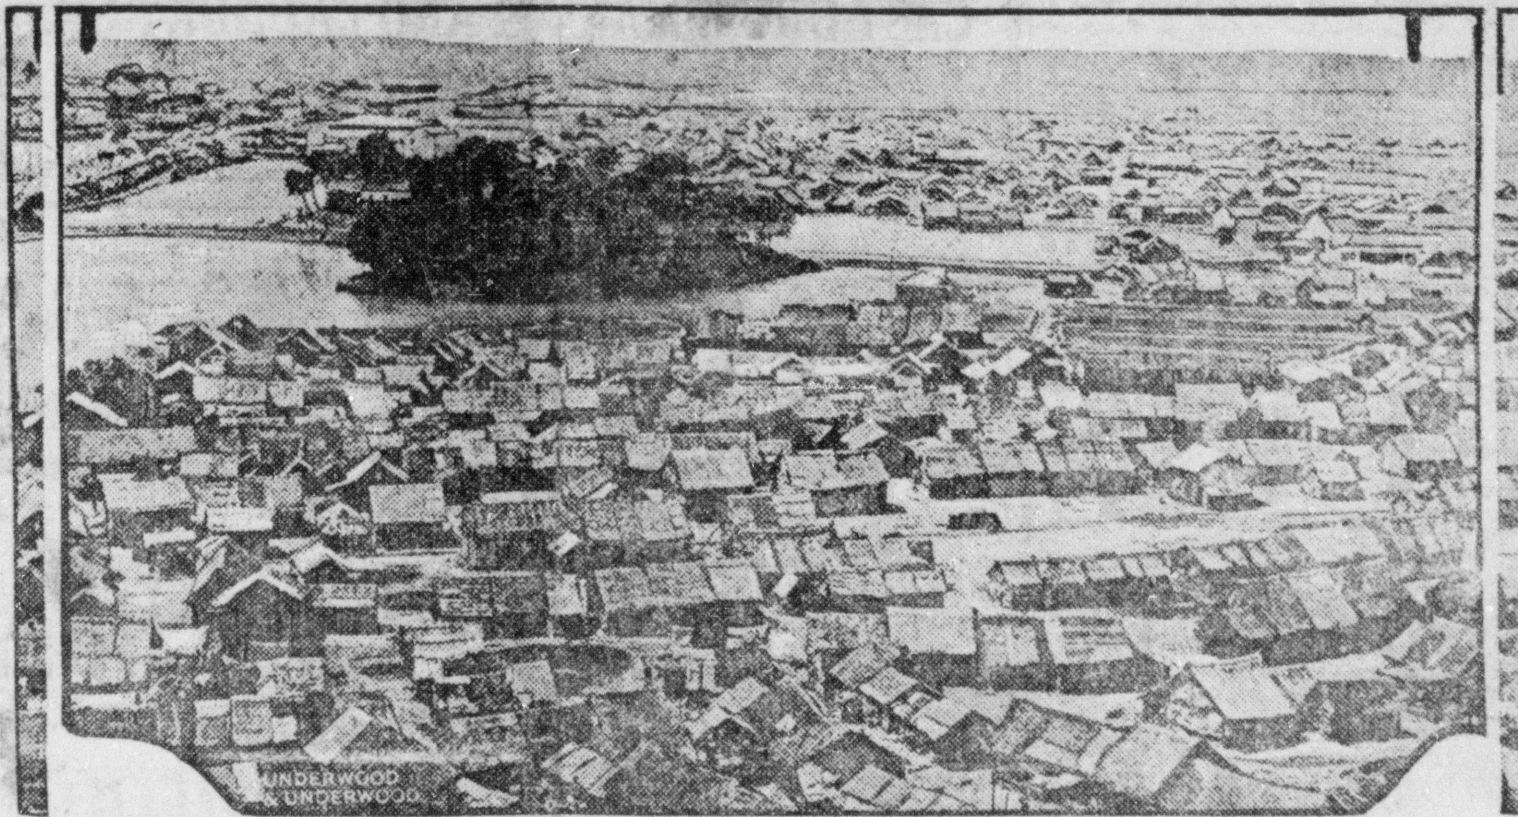

One daughter, Mrs. Cedelia Morgan of Williamsport, survives.

The funeral services will be held at her late home Monday afternoon at 2:30 o'clock. Rev. Trout will officiate. Interment in Springlawn cemetery.

Columbus — Experiments in which electric currents of 50,000 volts were used to strip the outer electrons off the atoms of various chemical elements were described by Dr. R. A. Millikan world famous physicist in his sixth lecture at Ohio State university. These experiments were performed in Dr. Millikan's own laboratory, the Norman.

Columbus — Governor Vic Donahey had a very special fish today for his Good Friday dinner. The fish was a 14 pound catfish caught in a stream in Guernsey county by Elzy Johnson of Cambridge and presented to the governor for observance of Good Friday.

The catfish was one of the largest caught in Guernsey county in several years. When dressed for the governor's table it weighed more than 10 pounds.

New Lexington — After romping on the floor for an hour with his five years old son, Hugh Quigley, 42, railroad employe of Rendville, Perry county, retired. A few minutes later the boy ran to his father's room to kiss him good night. He found his father dead. Too much exertion caused a hemorrhage of the brain physicians said.

Springfield — Following report that Oscar E. Richardson, 40, had been drowned in Mad river near Snyderville, deputy sheriffs dragged and dynamited the river for 12 hours without finding the body.

Bucyrus — Crawford county commissioners today offered a reward of \$500 for apprehension of the murderer of Clarence Lowe, Leesville farmer, found dead along the Lincoln highway, near Gallion, April 8. Private detectives who have been employed to work on the case believe there is a chance of apprehending the guilty party.

Gallipolis — Dewey Gay, 21, was seriously injured when his automobile plunged over an embankment. He lay unconscious some time before being discovered by passing motorists. His face was crushed and arms broken.

Origin of Unlucky 13

The origin of the anathema attaching to the number 13 has been traced to Scandinavian mythology, wherein there were twelve hemlgods until Loki, the sinister, intruded himself, making the unlucky thirteenth, says the Dearborn Independent.

LANCASTER GIRL

INVENTS CALENDAR.

A novel, perpetual calendar has been invented by Miss Faye A. Stevenson, daughter of Mr. and Mrs. R. E. Stevenson, of King avenue, Lancaster.

The calendar operates on a new principle and is so designed that by turning a cardboard wheel the calendar for each month will appear automatically and in proper order. Besides being useful as a continuous or perpetual calendar, any date may be referred to any years between 1925 and 1947.

Two United States Patents have been issued to Miss Stevenson on the calendar and one patent in Great Britain.

FRACTURE FATAL TO LITHOPOLIS WOMAN.

Funeral service for Mrs. Mary Catherine Bowman, 73, of Lithopolis, who died Tuesday in Grant hospital, Columbus, was held at 10 a. m. Friday in Lithopolis Lutheran church. The body was placed in the mausoleum at Lithopolis.

The death of Mrs. Bowman resulted from a fractured hip suffered a fortnight ago, when she was knocked down by a large dog. She is survived by the husband, a daughter, Mrs. Stella Sparkman of Lithopolis and sons, Emmanuel, of Lithopolis and A. R. Bowman, of Columbus.

RALPH WARE DEAD.

Ralph Ware, the well known and highly respected citizen of Frankfort passed away at his home, Monday night at 11 o'clock. Mr. Ware had been a sufferer from heart trouble and the past few weeks had been confined to his home with the disease.

Mr. Ware was in his 74th year and had spent most of his life in that neighborhood. He is survived by four children, Misses Marie and Gertrude Ware at home, Lyle Ware of Buckskin township and John Ware of Bellefontaine.

Mr. Ware was a member of the Methodist church and a member of the Modern Woodmen of America.

CHAPPELEAR BILL DEFEATED IN HOUSE.

Medical examination of persons contemplating marriage will not be required in Ohio thru any enactment of the present legislature.

By a vote of 49 to 67 against the House of Representatives Thursday defeated the Chappellear bill that would have required that medical certificates of fitness be obtained by every person intending to marry before a license be issued. The measure also provided for sterilization of certain defectives before marriage.

The senate had passed the bill, which was sponsored by Senator C. C. Chappellear of Pickaway county—Lancaster Eagle.

Roger Bacon's Error

W. B. DRUM DIED SUDDENLY IN CLEVELAND

A long career as banker, broker and financial statistician that won him wide recognition in Cleveland and the state, was ended yesterday when W. B. Drum, 65, was found dead in bed at the New Amsterdam hotel of heart disease.

For twenty-one years he had been connected with Otis & Co. and for the last seven had been head of the firm's statistical department. Although he had been ill for the last few years, he did not relinquish active interest in his work, and visited his office as usual Saturday morning.

Mr. Drum's career in Cleveland began twenty-seven years ago, when he came here from Circleville, O., where he had been bank cashier. His first position here was with the Denison-Prior Co., a brokerage house, from which he went to Otis & Co.

Years of study and experimentation made Mr. Drum an authority on financial reports of corporations, and he often was consulted by firms in Ohio and in the East regarding compilation of such reports.

He was little in the public notice, preferring to spend his leisure time in study and reading. His colleagues recalled last night that he was an omnivorous reader of financial subjects.

Two sisters, Misses Ella and Lydia Drum, are the only immediate surviving relatives. He made his home with them at the hotel following the death of his wife about three years ago.

Funeral arrangements await arrival of the two sisters, who were out of town.—Cleveland Plain-Dealer.

Hard Luck Tales

MARDIS BILL CUTTING RATES ON OHIO COAL

Went Thru the House by a
Vote of 90 to 12 Wednesday Evening.

By a vote of 90 to 12 the Ohio House of Representatives late Wednesday passed the Mardis bill reducing railway freight rates on shipments of Ohio mined coal within the state.

The bill, sponsored by Representative S. K. Mardis, Athens county, would limit the Ohio intrastate coal rate to not more than 70 per cent of the rate in effect Jan. 1, 1917. This would amount to a reduction in the present rate of from 5 to 25 per cent, depending upon the number of miles traveled by the shipment.

The bill now goes to the Senate.

The Legislature will wind up the present session Thursday of next week, unless plans completed Wednesday afternoon are upset.

Senate Republicans, in caucus, agreed to the House program, which calls for a recess Thursday of this week until next Wednesday, when the lawmakers will return for a two-day session.

Another short session later, to act upon legislation which Governor Donahey my veto, is possible.

Most serious threat of disruption for this program lies in a threatened controversy between the Senate and the House over the taxation program.

It was indicated at the Senate caucus that if the House deviates materially from the program agreed upon, the whole program may have to be abandoned and a new one drawn up.

Discussion on the tax program followed warning. Wednesday morning, by C. C. Bolton, majority leader in the Senate, to Martin S. Dodd, floor leader in the House, that if the House passes proposed amendments to the Aigler Corporation Franchise Tax Bill, the Senate will defeat the bill to increase the tax on gasoline to three cents.

Myers Y. Cooper, late Republican candidate for governor, in a speech before the House, commended the members for not passing an avalanche of laws.

Cooper stressed the necessity for economy in state government and called attention to the deficit in the state treasury, which, he said, had equalled \$40,000,000 in four years.

He said he had opposed the half-mill levy but he feels that the Assembly in putting the one-year limit on that legislation, has sensed notice that a new remedy is to be sought for the relief of the state.

The automobile drivers' license bill was defeated by the Ohio House of Representatives Wednesday afternoon for the second time in two days.

The bill, defeated Tuesday by a vote of 70 to 50, was reconsidered and lost by two votes. It needed 69 and received 67, with 55 opposing it.

The state is authorized to borrow \$750,000 on certificates of indebtedness to tide over the present financial emergency, in a bill by Senator C. C. Bolton, passed by the Senate. It now goes to the House.

Ranch Appellations

The name "Lazy," so often affixed to western ranches, refers to the brand used on its animals by the ranch. When letters of the alphabet are used they are often varied by their position. When tilted at an angle of 45 degrees they are said to be "tumbling"; when lying flat on their back or face, "lazy."

O. S. U. STUDENT ELECTROCUTED

Columbus, April 14.—The first serious accident to occur in any course at Ohio State University, cost a life Wednesday when Ira Miller, 23, Delphos, O., senior engineering student, was electrocuted during an experiment in Robinson Laboratory.

Miller, with a fellow student, Alfred Myers, New York, and two others, was conducting a test on an alternating current machine.

It is believed that he accidentally opened the 110-volt field circuit of the alternating current generator with which he was working and at the same time had his hand in contact with the terminals of the circuit.

Myers, noticing Miller's plight, immediately switched off the current but Miller was dead.

Destroyed Currency

A flat sum of \$1,000,000 is carried on the books of the United States treasury as "unknown-destroyed," according to Paul Kinkead in an article in Liberty. This he explains, attempts to account for all currency that is lost or destroyed, but, as he says, "A much greater percentage of paper money is lost than is shown on the books—how much, the treasury has no way of knowing."

LOANS UP TO \$500

The "wisecracker" might say that money talks because there is a woman's head on every dollar. But you know that is not the real reason. Money talks because the world's business is transacted with money. Money creates a peculiar condition of affairs everywhere. It divides society into groups. Families living side by side may be friends, yet because of the difference existing between them in terms of dollars (wealth), they are as total strangers in the world where "money talks." This separation is sensed by both, and the barrier—intangible as it is—becomes real.
The City Loan is always ready to "talk money" with you in terms of helpfulness to yourself and family. You may have taxes to pay or other requirements to meet that call for the immediate expenditure of money, and it will pay you to call here and learn about The City Loan plan.

FARMING
OUR BASIC
INDUSTRY

Renick W. Dunlap Assistant
Secretary of Agriculture
Talks to Farmers.

Two weeks ago Renick W. Dunlap
assistant secretary of the federal de-
partment of agriculture, addressed
the Illinois Farmers' institute at
Kankakee on "Our Basic Industry."
A copy of this thoughtful speech is
before us. It indicates the quality
and range of his thinking. He says
that "no matter what form of agri-
cultural legislation is finally adopted
it should have the support of a ma-
jority of farmers. No proposal thus
far has been able to command sup-
port even approximating a majority.
No measure which has been present-
ed to congress has had the united
support of even the farm organiza-
tions. The largest of these organi-
zations, one which has a member-
ship larger than the combined mem-
bership of the next two in size, was
opposed to the bill, which was
passed by congress a few days ago.
Nor are unorganized farmers any
nearer an agreement; but if all the
organizations had been together on
their legislative program, it would
have represented only about one-
fifth of the agricultural population
of the country. To date, there have
been sections against sections, one
interest against another, one type of
agriculture trying to supersede other
types."

Mr. Dunlap recognizes, however,
that the agitation in congress and
elsewhere for agricultural legislation
has fixed "the farm problem and the
condition of farmers in the national
consciousness. "The spotlight is on
the American farmer," he says. "He
is probably the most talked-of per-
son in the country. He is the sub-
ject of serious conversation in the
business office, in the bank, the store
and the factory. He is on the front
page of newspapers and is given con-
siderable space in The Congressional
Record. He is talked about in meet-
ings of all kinds, and especially is
he talked about whenever politicians
are gathered together."

It is possible, therefore, that since
farmers are conscious of this fact
they may be better prepared than
they otherwise would have been to
appreciate this counsel from Mr.
Dunlap: "The first thing to do in
approaching the future is to adopt
an attitude of hopefulness.
For several years any farmer who
was publicly hopeful and confident
has been condemned as "an enemy of
farmers" by some organized groups
backing legislative programs. A
stock farmer in St. Clair county, Il-
linois, last year received \$5,000 for
his hog crop, raised on his 240 acre
farm. It was mostly profit. He paid
\$2,500 for tile with which to drain
and improve his land. Another
Illinois farmer made an encouraging
net profit last year. These men in-
form The Gazette, of which both are
subscribers, that they cannot afford
publicly to state in conversation or
print what they made last year, be-
cause, if they did, they would prob-
ably be publicly criticized as fake
bookkeepers who are against farm
relief.

Consequently, it has come to pass
that those farmers who are doing
well are not only in the limelight, but
thousands of business men do not be-
lieve that they exist. It has always
been true that farmers who are doing
fairly well or prospering don't "tell
the world." Trouble-makers, how-
ever, and those who exploit the trou-
bles of others are always "telling the
world." It is this element in agricul-
ture whose press agent activities
have delayed and largely prevented
the developmnt of hopefulness and
confidence among farmers. In-
fluenced by an organized campaign
politically to "sell" farming as a
moribund occupation, many a man
engaged in it has lost heart, laid
down on the job and wearily ex-
claimed, "What's the use?"
Fortunately, the hopeless attitude
is dying of its own weakness and
futility. Hopefulness and confidence
are evidenced by stockraising farm-
ers to a more marked extent than by
any other class of farm people. Both
are based on an increasingly satis-
factory position of the commercial
live stock trade. Stock farms are
spreading the contagion of a hope-
fulness that breeds constructive ef-
fort.—The Breeders' Gazette.

King George Gets Up
Early Every Morning
Sandringham, England.—Strict self-
discipline has not been relaxed since
King George and Queen Mary took up
winter residence at this royal de-
mesne and cast-ion punctuality re-
mains the rule for the household.
The court will remain in residence
here until the spring, when it will be
transferred to Buckingham palace in
London prior to the king's contem-
plated cruise in the Mediterranean
sea.
King George rises, as he always
does, on the first stroke of eight, ex-
cept on Fridays, when he gets up at
7:30 in order to have his hair and
beard trimmed.
Mother and son paid a prearranged
visit to the historic town hall and
inspected the ancient, underground
dungeons, the walls of which are built
into the foundations, and are from
three to six feet thick. Despite the
depressing atmosphere of subter-
anean dungeons on a foggy rainy
day, the queen went through the
whole program before she returned
to tea.

Dislocates His Neck;
Surgeon Grafts Bone
St. Louis.—Holding up the neck of
James R. Parsons, Jr., who suffered
dislocation of his neck in an automo-
bile accident, September 1, is a five-
inch piece of shin bone.
The bone grafting operation was
performed by Dr. F. L. Morse after a
futile attempt to knit the neck verte-
brae by the use of plaster cast alone.
Although somewhat reluctant to talk
about himself, Doctor Morse admits
the success of his operation has been a
surprise even to himself.
Slight paralysis had already set in,
affecting the nervous system of Par-
sons' left arm and side when Doctor
Morse attempted the operation at the
St. Louis Baptist hospital.
The basal vertebrae of the neck had
been thrown directly forward, but not
enough to sever the nerves running
from the base of the brain, and at St.
Mary's hospital the neck was set and
placed in a plaster cast. Parsons' neck
was in this cast four months, but
when the cast was removed the neck
again slipped forward.

Self-Improvement
There are few pleasures to be compared with that sense of growing self-mastery—of increased purposefulness and effectiveness in our daily lives which is the reward of frequently thwarting and contradicting our lower selves.—Dean Inge.

BROTHERHOOD MEETING.
A most interesting meeting of the Otterbein Brotherhood of the U. B. church was held Thursday evening at the community house. It was an open meeting and a very large crowd of men, women, young people and children enjoyed the excellent program, and the fellowship of the evening.
A short business session was first held in charge of the president, Mr. J. R. Kirkpatrick. Much interest was manifested when he outlined a plan to start a fund toward the building of a new \$15,000 community house, the plan being 100 men or women to pledge one dollar a week for one year, to raise the initial sum of \$5,000 as starting the work.
Mr. Kirkpatrick was so bubbling over with enthusiasm, that the spirit appeared and several names were given as pledging their interest and cooperation.

The program was then taken up in charge of Mr. James Trimmer. By request, "Aunt Clara" Denman and her old-fashioned choir repeated the old-fashioned singing program, which they gave a short time previously at the Ladies' Aid. In the spirit of this social time several beautiful old hymns of our "Savior's Passion" were beautifully rendered. A paper was read by Mr. E. S. Neuding written by Hon. Whitcraft, of Logan, which he gave before the Rotary club Thursday noon.
A recitation, "The Doughnut" by Bobby Davis and "It's Not the Church it is You" by Charles Davis were well given.
Charles Kirkpatrick gave a pretty cornet solo, accompanied by Earl Green.

The closing number of the program was a song rendered by a mixed quartet composed of Mrs. Fannie Greeno, Mrs. Bessie Long Mr. Harry Kraft and Mr. Jim Trimmer.
Delicious refreshments of brick ice cream and homemade cake and coffee were then served by the March committee.

TRAFFIC TOO HEAVY,
PARKS FOR SLUMBER

Excited Woman Thought Auto-
tist Was Dead.

New York.—Lieut. David McCann sat in comparative peace in Brooklyn police headquarters and then suddenly the telephone rang. "There's a dead man in an automobile at Locust avenue and East Thirteenth street," a woman's voice announced excitedly. "Yes?" inquired the lieutenant.

That broke up the lieutenant's morning—that and nine other telephone calls like it. McCann reported: "A flock of dead men in automobiles at the corner of Locust avenue and East Thirteenth street." A wagon load of police went over.

There was Inspector John J. Sullivan, in charge of all of the detectives in Brooklyn. There was Acting Capt. John Ryan. There were 25 assorted detectives. And there, sure enough, was the automobile with a man in the rear seat.

Doctor Robinson was called from the Kings county hospital. "Looks bad," he remarked, and shook the body. There was no response. Then he prepared to test the heart action. That time there was a response.

"What," inquired the body, turning suddenly into Ralph Harrison, twenty-five years old, "is the matter?" "You tell us," suggested the police, in unison.

"I remember now," said Harrison, suddenly. "Last night I had a drink or two and then everywhere I went I could see three or four cars coming toward me. I decided that traffic was pretty hard and pulled over to the curb to take a nap. And there you are."

A detective drove him home.

AMUSEMENTS

Come, on Jackie! That's the cry that reverberated thru the Met theater when the youngest star of the movies is appearing in his latest production, "Johnny Get Your Hair Cut" a race track story by the late Gerald Beaumont.

Children and grown-ups alike were out of their seats as Jackie, astride "Thunderbolt," came charging down the homestretch — each calling for their favorite to win. Then something dreadful happened, and Jackie faltered—but that's the big surprise in the picture, and it would detract from the entertainment were you to be told everything in this column—suffice to say that never has there been such a race track scene in any other film.

Whoever was responsible for selecting this vehicle for Jackie's first film, sans the Dutch bob, is to be congratulated. Much depended on the story which was to introduce a new Jackie Coogan to the American public. We are frank to admit that we like the Jackie with the regular boy hair cut, just a tiny bit better than the baby Coogan who has blessed the screen these five years past. The young genius may have lost some superfluous hirsute, but those big brown eyes seem to have grown in size since last he appeared in a picture.

The faithfulness with which the director has followed the original manuscript merits particular praise. Any deviation from the story that Gerald Beaumont wrote with Jackie in mind for its hero would have been detrimental to the picture. As the orphaned son of a trainer of fine race horses, Jackie starts to make his way in the world—his chief ambition to be a great jockey. He stows away on a palace horse car which is carrying race horses from the eastern tracks to the west and arrives ultimately at Tanforan, California. What befalls him there, and the series of comedy events which lead to the great race show Jackie at his very best and will add even to the fame that is already his.

The beautiful race track at Tanforan is used as the setting for this vigorous screen story. Most of the photographic effects are credited to Frank Good, for many years head cinematographer for the Coogan company. E. Reeves Eason, who directed the thrilling chariot race sequences in "Ben-Hur" is responsible for the most exciting horse race ever photographed. The picture was made under the supervision of Jack Coogan Sr.

Cats as "Retrievers"
The ancient Egyptians are said to have killed wild ducks with throwing sticks, to have made use of decoys, and to have trained cats as retrievers. They also hunted with trained lions, which belong to the cat species. There have been also hunting leopards used as long ago as the reign of Kubla Kahn in China.

WIFE ASKS DAMAGES

Dry Raiders Sued For \$25,500 In Death of Albany Man.

Athens, April 13.—Mrs. Eva Bolton, Albany, Athens county, whose husband, Lawrence Bolton, was shot to death by dry raiders last October, filed today a \$25,500 damage suit against five officers.

Mrs. Bolton claims the officers shot and killed her husband at night when he failed to halt his car at their command, and that they had no warrant to search his auto or person. No indictment was ever returned against the raiders although grand jury investigation was held last January.

Claims to Have Solved Tailspin Air Problem

Santa Monica, Calif.—Donald Douglas, airplane manufacturer and designer of the United States army world-flight planes, says that he will announce at the third annual Pan-American commercial conference in Washington, May 2 to 5, that a new method of balance has solved the tailspin problem of flying. A shift in the weight distribution of the airplane, by the removal of fuel tanks to the center of gravity, has conquered the air bugaboo, Douglas asserts.

The squirrel that seems to be at play, is getting ready for a rainy day.

—STATEMENT—

Statement of the ownership, management, circulation, etc., required by the act of congress of August 24, 1912, of The Daily Union-Herald, published weekly at Circleville, Ohio, to April 1, 1926.

Before me, a notary public, in and for Pickaway county, personally appeared C. C. Chappellear, who having been duly sworn according to law, deposes and says that he is the sole owner of The Daily Union-Herald and that C. C. Chappellear is the publisher, editor, managing editor, business manager of said publication and that his address is Circleville, Ohio, that there are no bondholders, mortgagees and other security holders owning or holding one per cent or more of total securities. That the average number of copies of each issue of the publication sold or otherwise distributed thru the mails or otherwise to paid subscribers during the six months preceding the date shown above is 1136.

Ancients Overlooked Celery

Epicures of olden times, while skillful in finding nice things for the table, overlooked celery, although it grew as a wild product in many countries and was plentiful, and the plant was brought into the market as a luxury, still is considered one and the wild crop has not been used save in a small way.

OBITUARY

SARAH ELIZABETH SWANEY
Mrs. Sarah Elizabeth (Pontius) Swaney, 85, widow of Siram Swaney, died at the home of her granddaughter, Mrs. Warren Lewis in Columbus, Tuesday after an illness of one year following an accident in which she suffered a broken hip. Deceased was a sister of Mr. Chas. Pontius, of Tarlton, and an aunt of Leslie Pontius, of this city. She is also survived by two sons, Milton and Thomas Herbert Swaney, of Columbus, and five grandchildren.
The funeral was held from the home of Mrs. Lewis this afternoon at 2 o'clock with burial in Green Lawn cemetery.
Mr. Chas. A. Pontius, Miss Anna Pontius, of Tarlton; Mr. and Mrs. Leslie Pontius, Mr. Frank Shride and Miss Mary Roberts of this city, attended the funeral.

IT PAYS TO ADVERTISE

DUPONT IS FIREMAN

One of World's Richest Men Fights Blaze at Neighboring Farmhouse.
Wilmington, Del., April 13.—(UP.)—Pierre S. Dupont, formerly head of General Motors and reputedly one of the richest men in the world, turned fireman to save farm homes from destruction.
Six fire companies, including the one from Dupont's Longwood estate, were called out last night when the \$11,000 farm house of Clark May was being razed by flames.
Dupont accompanied his company and directed hose men in quenching the blaze before it could spread to nearby dwellings. He remained on the scene almost until dawn.
Age will be mighty hard on the woman who is only pretty.

names of colors you've never seen even
in cross word puzzles.

Hats that will look well on you---and
hats that won't.

Hats that may seem more than you
want to add to your overhead---and hats
that will meet your salary with a smile.

We Have The Hats--that's our story
and we're going to stick to it.

Knox Hats \$4.00 to \$7.50

Spring Caps \$1.50 to \$3.00
